CONTENTS Volume 80

Vol. 80, No. 1

Wali, N. & L.E. Leguire, Fundus pigmentation and the dark-adapted electroretinogram 1

Kellner, U. & M.H. Foerster, Color electroretinography: A method for separation of dysfunctions of cones 13

Tanabe, H., J. Tanabe, H. Hanazaki, Y. Hashimoto & K. Kawasaki, Spectral characteristics of rapid off-response in congenital deuteranomaly in one of monozygotic female twins 25

Howe, J.W. & K.W. Mitchell, Electrophysiologically determined contrast sensitivity in patients with ocular hypertension and chronic glaucoma 31

Mierdel, P., H.-J. Zenker & E. Marré, Cortical potentials to pattern reversal and luminance onset under ramp stimulation conditions in glaucoma 43

Biersdorf, W.R., R.A. Bell & R.W. Beck, Pattern flash visual evoked potentials in patients with homonymous hemianopia 51

Harding, G., B. Janday & R. Armstrong, The topographic distribution of the magnetic P100M to full- and half-field stimulation 63

Riemslag, F.C.C., A.P.A. Beers & H. Spekreijse, The application of Laplacian analysis in the recording of half-field pattern-onset evoked potentials 75

Kuba, M. & Z. Kubová, Visual evoked potentials specific for motion onset 83

Textorius, O. & E. Gottvall, The c-wave of the direct-current-recorded electroretinogram and the standing potential of the albino rabbit eye in response to repeated series of light stimuli of different intensities 91

Vol. 80, No. 2 (ISCEV 6.5)

Giuffrè, G., G. Randazzo-Papa & C. Palumbo, Central retinal vein occlusion in young people 127

Chavis, P.S., S.R. Antonios & K.F. Tabbara, Cyclosporine effects on optic nerve and retinal vasculitis in Behcet's disease 133

Bullimore, M.A., B. Gilmartin & J.M. Royston, Steady-state accommodation and ocular biometry in late-onset myopia 143

Suzuki, R., K. Tanaka, N. Fujiwara & S. Kurimoto, Postcataract against-the-rule astigmatism after phacoemulsification procedure: Characteristic changes over time 157

Salacz, G., Postoperative necrotizing sclerokeratitis 167

Mutlukan, E., M. Bradnam, D. Keating & B.E. Damato, Visual evoked cortical potentials from transient dark and bright stimuli: Selective 'on-' and 'off-pathway' testing? 171

van Gerven, J.M.A., J.P. Boot, H.H.P.J. Lemkes & J.A. van Best, Effect of morphological abnormalities on blood retinal barrier permeability in diabetic retinopathy 183

Accardo, A.P., S. Pensiero, S. Da Pozzo & P. Perissutti, Some characteristics of saccadic eye movements in children of primary school age 189

Collum, L.M.T., W.J. Power & A. Collum, The current management of herpetic eye disease 201

32nd Meeting of the Association for Eye Research
Århus, Denmark, 3–7 July 1991

Session 1A: Corneal wounds (Abstracts 1–5) 213

Session 1B: Lens / Cataract (Abstracts 6–9) 216

Session 2A: Immunology (Abstracts 10–14) 218

Session 2B: External eye / Lacrimal system (Abstracts 15–19) 221

Session 3A: Fine Structure I (Abstracts 20–21 – see also below) 224

Session 3B: Pharmacology / Physiology (Abstracts 22–27) 226

Session 4A: Cornea / General (Abstracts 28–34) 229

Session 4B: Lens / Biochemistry (Abstracts 35–40) 233

Session 5A: Fine Structure II (Abstract 41 – see also below) 236

Session 5B: Glaucoma / Uvea (Abstracts 42–48) 237

Session 6A: Retina (Abstracts 49–56) 241

Session 6B: Anatomy / Pathology (Abstracts 57–62) 245

Session 7B: Clinical / Epidemiology (Abstracts 63–68) 248

AER-Posters (Abstracts 69–93) 251

1991 Meeting of the European Club for Ocular Fine Structure
Århus, Denmark 3–7 July 1991
